## Double Euromoney recognition for Deutsche Bank expertise in Jersey

Deutsche Bank in Jersey has been recognised for its investment banking, asset allocation and research expertise in the highly respected Euromoney 2015 Private Banking Survey.

Following comprehensive research undertaken by Euromoney, the results of which are published this month, Deutsche Bank was awarded the double accolade of 'Best for Investment Banking Capabilities' and 'Best for Research and Asset Allocation' in Jersey.

Providing a qualitative and quantitative review of the best services in private banking, by region and by areas of services, the survey is considered the benchmark for the global wealth management industry and reflects the opinions of private banking professionals across the globe. The results of the survey form the basis of the Euromoney Private Banking Awards, which were held on 12<sup>th</sup> February at Plaisterers Hall in London.

Andreas Tautscher, Chief Country Officer of Deutsche Bank in the Channel Islands, said:

"From Jersey, we offer clients access to the full intellectual potential of our organisation, combining proprietary investment research with the best external research to provide a full range of investment solutions. Our collaborative approach enables us to operate as one team across all functions and regions to ensure our clients in the Channel Islands, and elsewhere, can benefit from our global capabilities. With this in mind, I am delighted that our investment and asset allocation and research expertise in Jersey has been judged by our peers through these rankings to be the best in Jersey."

Ends.
