Our Solutions

Types of facility

Deposits

We accept deposits in a wide range of currencies, at call and fixed terms.

Separation of capital and income

We work closely with your advisors to ensure that, where required, capital and income accounts are maintained separately.

Treasury and execution services

Deutsche Bank FX service operates in 42 locations worldwide, is an industry recognised world leader in all aspects of the foreign exchange business from the standard spot markets to readily traded currencies. Our locally based Treasury and Execution team, through their direct access to Deutsche Bank's global networks will be available to assist you with your execution needs. Products covered include Equities, Fixed Income, Spot and Forward FX and Currency Swaps for hedging purposes.

Payments

We are able to process SWIFT, CHAPS and BACS payments and Internal Transfers. Our online banking system *Presto On-Line* is specifically designed for professional firms, enabling them to process large numbers of payments efficiently and effectively.
